April 15, 2006

Venue : Total: 24 Continuous Education Centers in entire city, Ahmedabad

Duration : 11:00 to 16:00

.....

[A] Preface:

Continuous Education Program is implemented by City Primary Education Committee of Municipal Corporation, Ahmedabad with the support of Ministry of Human Resource Development. Program has wide network with 128 Nodal Centre in entire city. All Nodal Centre have been administered by 128 Nodal Motivators. Total: 1278 Asst. nodal motivators are assisting to program at root level. The object of the program is that to provide non formal education to dropout children & youth of above age of 15 & to facilitate and train youth for income generation activities. 90% female are associated with this program. Total: 78000 beneficiaries are associated with this program from different wards of Ahmedabad city. AMC had adopted strategies to coordinate & link UEVR Program with other exiting developmental schemes & programs in city.

A part of this we have organized TOT on First Aid for Nodal Motivators of this program on March 28 & 29, 2006 at Elisbridge School No. 10, Navrangpura. Total: 128 Nodal motivators & 05 Supervisors have been trained in first aid & registered as members of Ward Disaster Management Team. These 128 nodal motivators divided in 24 groups (Each group conclude four or five persons) & organized full day first aid training program for Asst. Nodal Motivators & other staff of centre. All training programs have been frequently monitored by all 05 supervisors, Dy. Continuous Education Officer & NUNV-PO of UEVRP.

[B] Rationale of the program:

In the context of the DRM – UEVRP program, to prepare ward level disaster management teams on first aid is the key component for long term risk management in ward.

[C] Importance of First Aid Training Program:

In normal circumstances or critical situation like disaster strikes, First aider can give first aid and contribute to victims and save their lives before affected person gets properly medical treatment. History says that local volunteer & community performs crucial role in emergency situation. All trained volunteer will be register as WDMT member in their respective ward.

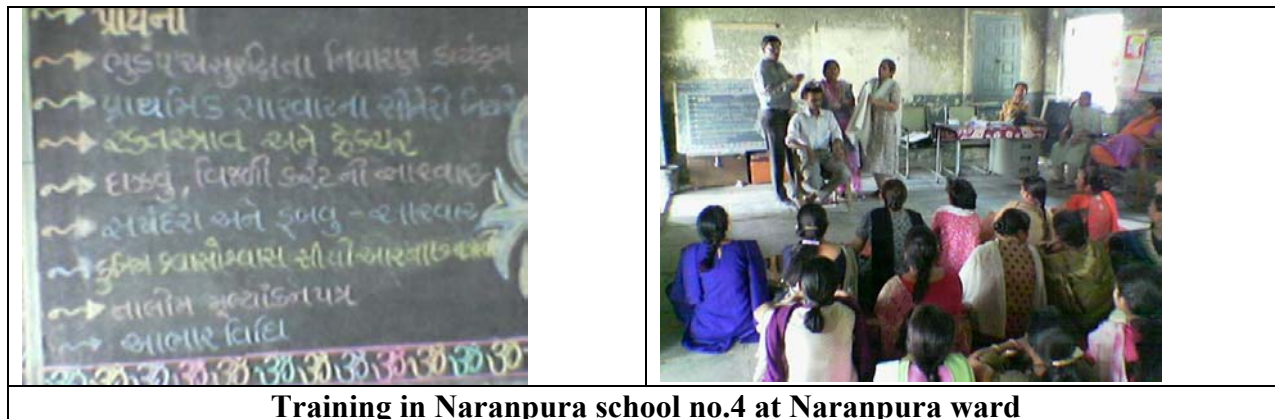

[D] Objectives:-

- i. To prepare ward level task force regarding first aid in terms of CBDRM.
- ii. To promote volunteerism among community.
- iii. To promote trainees for giving services voluntary in respective ward in any need based situation.

[E] About training:

a) Participants:

Total: **1060 members of WDMT (Male: 246 & Female: 814) have participated in 24 first aid training** programs. Total: **34 wards have been covered** under these training programs.

Training in Naranpura school no.4 at Naranpura ward
